The Lunar Return

Astrology can provide many valuable panoramas as you move through this world, from a lifelong overview to the snapshot of the opportunities available in a single instant. The view you get depends upon how far back you pull from the subject and thus how much your eye, so to speak, can encompass. In the words of the Sesame Street song:

That's about the size,
Where you put your eyes,
That's about the size of it.

It's all in how you frame your picture. The closer to the subject you get, the greater the detail - the farther away, the larger the scope. The natal horoscope with its transits and progressions can, for instance, give you a view of all the days of your life, painted with a broad brush. Or, the sweep of the heavens in the instant of the moment can portray where you're at right now. In the middle, the pictures of the coming month or the coming year are available to you in the form of lunar (monthly) and solar (yearly) returns.

What Is A Lunar Return?

Your Lunar return is the monthly chart of the instant the Moon in the sky returns to the exact position it was at your birth. It's kind of a monthly birthday, and the arrangement of planets it displays reflects the patterns of your coming month. Each month, this re-birth-day works out its potential for you and then is renewed once again 27 1/2 days later with a new set of surprises and opportunities.

How Does It Work?

Like your natal chart, or any other kind of horoscope, a Lunar return is a chart of a beginning - in this case, the monthly beginning of the lunar cycle that started at your birth, which is the cycle of your response to your environment, including your emotions, feelings, interactivity, social well-being, and generally how creatively you react to the challenges and opportunities of life. It works on the principle that when you begin something - anything - everything that flows from it is bound up in the initial conditions under which it started. The beginning is your foundation, and you build and rest upon it until you are finished. A Lunar return is the astrological depiction of the new beginning you make each month and what results from it until the next cycle begins.

Well Begun Is Half Done

"The beginning is half of everything," said the ancient Greeks, and so your monthly beginning is something to be taken seriously and honored, if you want your lunar month to have a good start. Thus, give yourself a little time and space to rest and meditate if you can in the few hours surrounding the time of your Lunar return each month. Take the time to think about what lies ahead, plan your strategies, and gather your resources so you can make the best of what's offered. Look over the aspects in your Lunar return chart and the days and times ahead where they individually kick in. Once you've got a calm picture of the challenges and openings to

come, you can rise to seize the day, one moment at a time, and make the most of the month.

Changing The Picture

The planetary positions in a Lunar return are locked in at the moment the Moon returns to its natal place. Where these positions fall in relation to the local horizon, and thus the areas of life in which they work, is entirely dependent upon where you are at the time. Thus, if you see that your Lunar return is going to develop a picture you'd like to rearrange, that can be accomplished by placing yourself at the right spot on the globe to fine-tune the event. Many astrologers travel widely in order to adjust both Solar and Lunar returns - I have done so repeatedly over the last 35 years with apparent great success, so I recommend it when necessary. Moving about extensively every month is not easy for everyone, but being aware that it affects the Lunar return is a plus if you normally travel on business and have some say as to where.

Pieces Of The Puzzle

The Lunar return is a large piece of the astrological picture of what happens with your life every month, but it is not the only one. Lunar transits, New and Full Moons, and other factors also weigh in, so they have been included in this report so you can have a more complete picture of what to expect and what you have to work with. You should remember, however, that factors whose timing is as short as a monthly cycle are more like the minute or second hands on your life's clock face. Don't forget to stand back every now and then and refresh yourself with the big picture of where you are and where you're going, which are described by long-term transit and progression cycles. After that, you can get back down to the day-to-day nitty-gritty which the Lunar return offers and know that your focus is tracking and every moment is enjoyed and utilized to its best advantage. With that in mind, read on and launch yourself into the coming month with the wind at your back and the planets racing by your side...

Your Personal Lunar Return

Your Lunar Return Chart This Month

Your Lunar return can be read in a manner similar to many other types of horoscopes, except that in doing interpretations it must be kept in mind that it has an unusually short life. The chart is only in effect for 27 1/2 days until it is supplanted by the next Lunar return. Thus, where the middle and outer planets are concerned, there is little or no change of sign over literally dozens of Lunar returns. This makes the overall influence of signs more of a long-term, barely changing backdrop and thus negligible in effect. The house placements and the mutual aspects of the planets and Angles thus become where all the action is, fueled mostly by the faster-changing positions of the inner planets. That may be just as well, as trying to stuff too much interpretive information into a description of a single month leads to diminishing returns, and what is important gets lost in the shuffle.

So what is most important in a Lunar return? Certainly the house positions of the Sun and Moon, and the sign of the Ascendant, which represent the main areas of focus for the month, along with the house positions of the planets. After that comes the aspects of the Lights, Angles, and inner planets to each other and to the middle and outer planets, which describes the dynamics of the month. Last comes the aspects of the middle and outer planets to each other, which provide a background dynamic upon which the rest play out. These, taken together with featured elements of your natal chart highlighted by Lunar Return positions, give an overall picture of the coming month.

Daily Events

After a look at the overall picture for the month, daily influences are painted primarily by the transiting Moon as it passes through the natal and Lunar return houses and ticks off its conjunctions to planets in both the natal chart and the Lunar return chart. This accounts for 47 occurrences, each of which happens once, in varying orders, throughout each month. As the Moon transits the houses and planets of the natal chart, it triggers events that are both personal to the moment and yet connect with more long-term issues as well, since the natal chart abides permanently. As the Moon touches the houses and planets of the Lunar return, however, its effects are to highlight and spark off the trends depicted in that chart only, and thus apply only to very short-term developments. These Lunar transits thus give what amounts to inner and outer pictures, short-term and longer-term effects working together, both of which are described in the text.

Personal Void-of-Course Moon

One final, and very useful, addition is the Personal Void-of-Course Moon. The period of time every 2 1/2 days when the transiting Moon has made its last aspect to another body in the sky before changing signs is described as a Void-of-Course Moon period. It can last from a few minutes to over a day, depending how late in signs the planets are at the time. Because the Moon at this time doesn't really have its "feet on the ground," is generally considered a period unfavorable for tangible decisions that require solid support, but an excellent time for insight, relaxation, and reaching outside of confining boundaries. Many astrological calendars include a monthly list of these times.

If you have natal planets late in one or more signs, however, an ordinarily Void-of-Course Moon may still be making aspects to your chart, allowing you a special exception from the rule and giving you a decision-making advantage at this time. Conversely, if your planets are mostly early in signs, then for you the Moon goes Void-of-Course sooner than for the rest of the world, allowing you to check out and party early, while others are still in a more mundane frame of mind. Thus, included here is a list of your own Personal Void-of-Course Moon times unique to you alone, in order to give you a very specific personal advantage. They each begin when the Moon makes its last aspect to your chart and end when the Moon enters the next sign.

Lunar Return: Jun 12, 1982

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects form the fundamental dynamic for the month: whether it's coming on like a juggernaut, sneaking up like a cat, stumbling in like a bull in a china shop, or striding in like a hero. Since the Lunar Return Moon is the same as your natal Moon, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Lunar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all month, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a month whizzing by according to plan. Hard aspects will indicate tangles and challenges to overcome. The text relays how to make the most of the former and how to transform the latter to get best results from the month.

Sun

Knowledge is power - and that's where yours lies this month. Whether it's through books (you're likely to read more) conversations (you bump into people who have wisdom you need to hear) or other sources, you're likely to be teaching/preaching or yearning/learning for something new.

Get out and about - being out of your bubble makes you feel a part of something greater. How can you laugh at the plight of others (comedy is a central theme now) unless you dare venture into their world?!

Smile, laugh - Think big and let others take care of the details: that's the central thrust this lunar month. You will have unique opportunities to observe and develop your life on a large scale, providing a fuller framework on which to hang your daily efforts.

Watch out for overindulge! With a 9th House Sun this month you want More More More - when will enough be enough as you overstretch? Go for the gold but be willing to accept silver or bronze.

You may find yourself involved with major external structures and belief systems like the law and issues of fundamental ethics and morality - other cultures may appear, or talk about the local church or philosophy - listen to others thoughts and opinions but avoid religious or ideological wars.

To a large extent, you have the ability to set your own course if you are willing to show involvement and commitment that inspires both self-confidence and trust. Be an example of what you believe and others will believe in you. The test of yourself is to be yourself and let

others follow. Don't be self-conscious, just know you're right, then go ahead...

Sun in Ninth House

The feeling you can get away with anything may be more accurate than you think this month, as energy flows easily in leaps and bounds and obstacles that might ordinarily be in the way are either swept aside or not there to begin with. The Sun reinforcing your natal Moon lends you the quiet emotional confidence that you are up to the task and that, whatever the details, your basic approach is correct and will be supported by other people and events. If you push the envelope, it will come naturally in the course of things and not likely cause problems or dispute. The only drawback might be that you assume too much, get too lazy, and forget to give that extra push to keep on course.

Moon Trine Sun

The more you flaunt your advantage, the more others are likely to rally to you and swell your ranks of support. You've got the power to move mountains by harnessing the raw elements of human need and channeling them to your will, but you will have to be willing to throw your full weight into the effort. It won't happen by itself, and this opportunity will pass you by if you don't seize it, so gird up your loins. Power atrophies if it is not used and you can't dive deep if you don't get into the pool. Flex your muscles while you have the chance, and the chances will continue to appear. When the tide is with you, don't just float on it, use it to propel you where you want to go.

Sun Trine Pluto

The Sun at midday spreads its widest beams abroad and like a flag at the masthead can be seen from afar. This month's energy therefore is great for letting people know where you're at and for self-promotion in general. Not so much for personal appearances, but for reputation, what people hear about you. Thus, an emphasis on career and standing in the professional community is easily pursued and much good can come of it. Under any circumstances, the word will be out, and it will do a lot better if you are the one spreading it and thus keep control of what is said instead of just letting the rumor mill grind away. It's a sunny month, so get out and bask in it.

Sun Conjunction Midheaven

You may find your personal life at cross-purposes where home life or career are in conflict with your self-image and people mistake who you are and what you do based on their own previous projections. You may have to be prepared to explain yourself about the simplest things and still have trouble getting across. Similarly, you can find yourself going a step too far in crossing others' boundaries and might do well to handle sensitive issues with kid gloves so no one comes out with a bruised ego. On the other hand, it opens possibilities for probing your own weak spots and refining your strengths so they don't get in each others way. Separate and solve, don't mix.

Sun Square Ascendant

Moon

Whistle while you work, and you'll find work is something to whistle about. You'll also find you feel better and get more done. This is a period of keying yourself emotionally to what you do and how well you feel and integrating the two so they work for and with each other. You can find special insight into how to change your routine to achieve more with less effort by turning it into something you want to do, rather than have to do. Similarly, you are more closely tuned in to what is good for you and keeps you in good health. This is a time to rediscover the details how you do what you do. Then, whatever works for you, do that...

Moon in Sixth House

You are in a fairly lengthy period where you can get extra mileage out of your imagination, and your intuition will be more in tune than usual. It's a time when you can do more than daydream, you can fine-tune your dreams so that they can become a reality. What's especially unique is that you need not go far afield to find what you are looking for, because it's more or less in your own back yard. Look to the smaller things in life to be bringing you the bigger inspirations, as it is in the microcosm that you see the larger picture reflected. Right now you don't have to chase after your goals but rather be very still and they will come of themselves.

Moon Sextile Neptune

This year likely finds you in possession of a kind of fearlessness that can get you through the stickiest situations by faith alone. Where others might doubt, you never give it a second thought, and proceed on. This does not mean rushing in where angels fear to tread, but it does mean trusting powers greater than yourself and in the situation itself to carry the day when it might seem impossible to accomplish alone. When you aim at a target knowing you are going to hit it, you rarely miss the mark. It is only when the hand or eye loses confidence that failure becomes likely. Consider the future to already be in your possession, and it is.

Moon Trine Pluto

Hard work and tangible investment in career plans can pay off big, as support is easier to find and work itself can fly by if it's producing. Don't be afraid to spend money in a good cause, as what you spend now will have a better than usual chance of bringing back dividends. Similarly, going the extra mile at work can really come back to you in disproportionate returns. Take big gulps, not sips, in whatever you do, and do it with gusto. The easier you make it seem, the easier it gets as long as you don't take things for granted. When you look like a success, people think you are a success - and you are! Lead with a positive attitude.

Moon Trine Midheaven

Ascendant

Your mental or intellectual activity will increase considerably this month. Your capacity to analyze and your attention to detail will be greater. You may feel the desire to study something new, or improve the way you do your present work. You may get more interested in service projects which improve the lives of others. You may concentrate on helping those around you by solving problems, distributing information on health issues, or getting involved in environmental concerns. It's important for you not to neglect your own interests. However, you

will find that, in one way or another, the things you do for the benefit of others will bear fruit for you in the future.

You could get so engrossed in your work that you lose yourself in details. Having a practical outlook is the key to finding good solutions. Don't spend too much time unnecessarily analyzing data and avoid wasting time on unimportant things. Deal only once with matters that you have to attend to. Then come to a conclusion and don't turn back again to analyze the topic in question. This only wastes a lot of time, entangles you in your own thoughts and has an immobilizing effect on you. If by nature you are less than meticulous in your work, you may find it easier to organize your thoughts and your work this month. If you are already very detailed and analytical, you should try to take time for some kind of physical activity so that you can remain more balanced between mind and body.

You could become less inclined toward a lot of social activity and be more drawn in and thoughtful. However, it is not good to be too reclusive and isolate yourself too much. This would give you too much time for self-criticism and dissatisfaction. You should see that you have a balance again between work and play.

Physically, you could be more nervous than usual which could result in intestinal disorders or other illnesses caused by nervous tension. It could also cause insomnia, brought on by too much mental work and excessive worry. It would be advisable to practice techniques such as Yoga to calm and focus the body and the mind. Highly competitive activities should be avoided if possible. You also should maintain a balanced diet of foods that are easy to digest. You will be inclined to want to improve your body and your health this month. It will come naturally to you now, and it would be a good time to go on a diet, if you feel you need to. You could benefit by boning up on subjects such as nutrition and the various kinds of alternate medicine that are available to you. Good health is one of the themes for this month.

During this period you may come in contact with intuitive and sensitive people who will share with you their hunches and visions of things to come. It would be wise for you to listen to what they say to you if you believe they might be relevant and true for you. Examine them carefully and determine their value. But, on the other hand, don't accept everything you hear without question. Be discerning and evaluate everything.

You will find yourself being more cautious and critical in your relationships. Things that never used to bother you will now become issues for you. You may not see your partner as clearly as before. You may find Pisces natives entering your life this month. Although you will find them appealing, you could also be annoyed by their emotional approach. And you may find them too dreamy and impractical for your Virgoan thinking.

It may seem like you have to have permission to start anything going this lunar month, but once you get a handle on the protocol required, you can get things going. Events will either be handled just so, or they will be chaotic and sloppy, and not much in between. Whenever you can get a written agenda ahead of time, you'll be ahead of the game by knowing the rules. Once

agreed upon, however, this approach can quickly see you through the complexities of the month, as it's all connected, a part of the plan. Keep your eyes on the path right in front of you, and the road will be clear. Omit needless words, edit down your thoughts, and you'll be on the path. Success through structure.

Ascendant in Virgo

It may be harder than usual to make yourself perfectly clear this month, as what you see is not what you get, and what you say may be totally misread. Attempts to clarify are likely to make things worse, so when in doubt, try another tack entirely rather than reexplain until the cows come home. This may be because you don't look like what someone expected, or because you're not clear as to how to really express what your bottom line is. Chemical solutions don't help - in fact, they just confuse things more, unless you just decide to put it all off and party. Still, there's the hangover to consider, literally or figuratively. Time will soon enough put you back into focus.

Neptune Square Ascendant

The inner planets change significantly from month to month and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills more to the test and increase your personal growth and talents through experience. The text relays both sides and gives advice on what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Grand ideas and schemes abound, and you could reorganize your entire approach to life if you have the time. In general, it's a space for standing back and getting a clearer overall view rather than being lost in the details. Take a good look at the forest, let the trees tend to themselves. You may find yourself lost in thought as you see more clearly how you fit into the scheme of things and where you want to go with your life. Put these epiphanies down on paper so you can reflect on them at leisure and reinspire yourself when life gets too crowded with mundane matters. Button down legal issues, write contracts, take the lead in where you're going because you know the road ahead.

Mercury in Ninth House

Mercury Retrograde

Three times each year Mercury goes retrograde for three weeks, impacting on one or two of your Lunar Returns. The period during which it is retrograde (May 21, 1982 to Jun 14, 1982) marks a background that affects everyone in a similar way and is not to be ignored. It's a period of some confusion, when messages and meanings go awry and the best laid plans discover something was left out or needs correction. Therefore, it is a great time for finishing things, putting on the last touches, editing the final project, as you'll pick up mistakes you might have otherwise missed. Conversely, it is less than ideal for beginning anything having to do with

communications, as you may build in errors without meaning to and have to spend time reworking it after it is launched.

Anything you can put into words you can probably accomplish this month, as form and function go hand in hand and your shots are clean from backswing to follow-through. You can make things look easier because right now they just are, but there's no need to let on when you can take lots of credit. Don't hog the action, but make sure you are in the middle of it as you have a lot to gain. Well-considered moves gain you praise, but you can't get lazy now just because it seems easy or obvious. You can't get your point across if you don't speak up - especially now that you're likely to meet with agreement on all sides. Speak clearly, act accomplished, gracefully accept admiration.

Mercury Trine Mars

Venus

If you've not yet developed a taste for antiques and collectibles, now's your chance. Lovely things surfacing from the past are a theme and that's just one of them. Time to take a fresh look and polish up what's gathering dust from previous days and make it part of today. Everything old is new again. If you need to put it on a credit card, that's probably a do-able do, since there's a good chance your credit line will go up. Just watch what you do with it. Desire and the opportunity to satisfy it runs high, just don't be greedy. Lost things find their way back to you, to pleasant surprise. Life is a constantly changing mix of new and old, one is silver, the other gold.

Venus in Eighth House

Mars

You've got a well of energy to tap right now that will allow you to push harder, be more assertive, and go the extra mile. By exercising your strength you can find yourself in a forward position in the ranks and obtaining a position of leadership. Avoid pushiness, but don't back off unless you see it's really the right thing to do. You have the ability to take what is yours, if you are willing to flex your personality muscles. Establishing or building on a good physical exercise regimen can set the stage for better health, more energy in the long term once you've got things underway. Don't stint, it's time to sprint. The phrase that fits: you can do it, go for the gold.

Mars in First House

The positions of the middle and outer Planets - Jupiter, Saturn, Uranus, Neptune, and Pluto, along with the Moon's North and South Nodes - change little from one Lunar Return to the next, so they add more of a backdrop, the stage set on which the monthly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. The text on the mutual aspects of these giants to the inner planets and the Lights, and where they fall by house, shows you just where to watch for them, what mood they're in, and how to get them on your side.

Jupiter

You will likely have the urge to spend, and if things go as expected, you'll have what's necessary to do just that. Income and acquisition in general could be a major theme, though it will be easy to go overboard, so keep track of your cash flow so that it remains in your favor. Given the choice, favor the larger item, the single big purchase, over many small ones which more easily mount up. All your eggs in one basket is the natural inclination, along with quality over quantity. Go for what will remain with you and appreciate in value so this energy will not be squandered and you'll have it to draw upon later when you may less afford to be so generous with yourself.

Jupiter in Second House

Saturn

You may want to pull in your wings a bit for awhile, as restricting forces are in the air that can put pressure on you if you don't carefully mete out your energies. Mainly, your personal energy reserves are easily drained, making situations you might have bounced back from take a greater toll than usual. Concomitantly, you may find more will be put on your shoulders than you would like, so look for others to take a load off. If there is any time to delegate authority, and the responsibilities that go with it, this is it. Nevertheless, you may feel obligated to handle things yourself anyway, in which case take it slow, careful, and avoid wasting time. Less is more this time, really.

Saturn in First House

Uranus

Flashes of insight, bolts from the blue, startling messages on your answering machine all could be around the corner. Sudden interruptions of calls and meetings, stop-and-go traffic more than usual, computer crashes, events bunching up together with long, vacant spaces between. It's a time of spotty and ragged communication, but when you get your point across, or get the message, you can find yourself on unexpected new ground. Don't try to keep it under too much control, just ride with it and see where it leads you. No times like interesting times, and here they are, so enjoy them. Don't make dates you can't break, or you'll be forced to break the dates you make. Just free your mind and see what happens.

Uranus in Third House

Neptune

If you're tempted to lie around the house and just dream sweet dreams, this is an ideal time for it. Be it ever so humble, there really is no place like home, and you'll likely find some of your most creative moments in solace, communing with yourself in comfortable and undisturbed surroundings. If you're inclined to change things around, however, think about it, outline it, formulate it, and then put it off for another time, as this is not a great time for implementation on the home front. Better to give the imagination full rein and envision how you'd really like to live, and then see if it's a practical possibility when you're in a more lucid

frame of mind. First fantasy, then reality.

Neptune in Fourth House

This rare but lengthy outer planet dance happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness. So, actually, although it has nothing to do with an individual lunar return, it sets a tone of tolerance, and this mellow relationship of Neptune and Pluto will manifest itself as a go-between that eases other aspects they take from other planets and angles which are active on a monthly basis. If one is troublesome, the other eases the problem.

Neptune Sextile Pluto

Pluto

You may find money issues to form something of a battleground, and your use of them will give you a competitive edge. This does not mean you should use your financial clout, such as it is, as a bludgeon - rather, by supporting the cause you feel strongly about, you use your advantage for the general good. Similarly, expect forced plays in this area and be ready to pay your own way if challenged. This can transform your view of how you can use your possessions, but take care to avoid short-sightedness in procuring what you want at the expense of others. Temporary triumphs can come back to haunt you, and gracious generosity will be paid back manyfold, if you are ready to compromise.

Pluto in Second House

You should be relatively free from the slings and arrows this month, though should your reputation be challenged you will toss it off your back with ease. The essence of this ride is being supremely confident that the work you have done, the accomplishments you have made, and the people associated with you in your efforts are unassailable and will come through any gale unscathed. The very fact you feel this way and show it will in itself ward off provocation, though you should by no means use this as an opportunity to slough off. Rather, use your position as a platform on which to build more of the same, utilizing the support already in place for leverage.

Pluto Trine Midheaven

Node

This may be an important time to throw some serious effort into promoting yourself, taking up new responsibilities and committing yourself to deals that will further your career. Efforts you begin now can have lasting repercussions down the line, but may require you to put in more at the beginning than you'll immediately get back. Don't take on more than you can comfortably carry, but don't miss out on opportunity, either. You may find more instant rewards on the home front this month, where you luck into something nice or are the recipient of an unexpected gift. Under any circumstances, you will feel especially welcome and tempted to come home early to enjoy the experience.

When selected Lunar Return positions occupy the same spaces as bodies in your natal chart, this highlights certain natal inclinations for the month. It will mean that certain elements in your fundamental character will be emphasized both internally externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and gratifying steps ahead, providing your first line of challenges and opportunities to embrace the world.

Midheaven Highlighted by Pluto

Much may swing on what people say about you and the reputation you have gained, so be prepared to defend and promote your career position and your strength of character. Moves made by yourself or others at this time may have especially long-lasting effects, as first impressions are often the most lasting, and most impressions are second-hand, not in person. This may remind you that your public image can be more important than your private one, and it is certainly more accessible to the majority of people. What they remember may not be the "real" you, but you will be wise to make sure the unreal version looks as good or better.

Daily Events: Jun 12, 1982

As the Moon speeds on through the month, the minute hand of your Lunar Return, it moves through all twelve houses of both your natal chart and the Lunar Return chart, as well as hitting both sets of planets. These are the times to look for specific events that activate these parts of your monthly picture and will offer times for making your best moves. There are forty-seven such events, and they repeat every month, but not at the same time or in the same order. Plus, the playing field and basic potentials of each month differ, so each of the basic transits has a different role to play every month, while retaining its core implications. The individual transits begin with the symbolism of the degree at which they occur, followed by an interpretation of their general meaning, and finish with a handful of specific "issues and accents" to address, which they may bring into your life. Finally, your personal Void-of-Course Moon periods will vary widely and are important timing factors in the daily decision-making process, so keep a close eye on them.

19° Pisces: *The young man and old one have walked weary miles but as master and pupil they neither are fatigued. OUTLINE*

A general inclination to hold back and go inside for inspiration holds sway, which can lead you to tend home affairs or simply to withdraw a safe distance to consider what's important and what your next move will be. Similarly, it's a good time to refine defense strategies and patch up those fences that separate you from the neighbors and the outside world, literally and figuratively. When you are sure of your boundaries, you can more safely go beyond them.

07:31 pm **Moon Enters Return's 07th House**

24° Pisces: *The tiny island seems lost in the broad ocean but its happy inhabitants have created a great world all their own. CENTRALIZE*

These two days are for you and your partner or friends to get together and spend some quality time with each other. If there has been any strife, this is a good time to bring harmony back to the situation. You are more able to understand each other's point of view right now. Pleasant conversation and lively discussions are both likely today as testing the validity of ideas is part of the balancing energy you're working through currently. Generally it's a good time to socialise in beautiful, environments, playing or listening to music, dancing, reading poetry aloud, or visiting an art gallery together.

There is no greater opportunity in life than another person, and your ability to partner well now can turn this period into a cornucopia of possibilities that would not be available operating solo. Don't expect to luck into a good relationship - the best ones are carefully built and meticulously tended. Creating and maintaining space for both to operate comfortably in is the key to making a partnership more than just two people making do. Tend to each other's houses and hearts.

19° Aries: *A magic carpet hovers over the depressing reality of everyday life in an industrial area. ILLUSIVENESS*

This is a very open time of month, when spontaneity and warm feelings can flow more easily, and the creative and romantic urges compete to hold sway. A good time for connecting with children or for taking a little time off for fun and frolic. Risk-taking is easier, and you're likely better at it now, though don't go out on a limb unless you're sure. Don't push for concrete steps, but go with the flow and let things happen and the results will surprise and delight.

Issues and Accents: *self-possession, clothes, originality, passion, jewelry*

Thu Jun 17, 1982 **Moon in Aries** (Enters Taurus at 12:07 pm)
01:07 am **Moon Enters Return's 08th House**

24° Aries: *An open window of an old-fashioned room is seen, the net curtain blowing inward into the shape of a cornucopia. PROTECTION*

If you've been sitting on any negative feelings, then this lunar phase will bring these to the forefront and give you that extra impetus to confront them. Deep, hidden issues come up around this time and when we really examine them and feel them to the full, they lose their hold over us. It's better to spend these two days quietly working through our own stuff. If you have to go out, be aware that it's easier to project negativity onto others rather than dealing with it ourselves so be careful not to become a target or to pick on anyone unjustifiably. If you're in any kind of therapy, make your appointments for these days.

Financial self-reliance is a goal, but sometimes it's better to gamble with other people's money than your own. A carefully-wrought juggling act of balancing borrowed stakes with retooling and refitting your own personal resources can serve you as well as gold in a safe deposit box. Extra baggage that you eliminate right now will make that whole process work more efficiently, so what you can't reclaim for reuse, spin off as gifts or collateral.

Issues and Accents: *research, compulsions, sanitation, predictions, repercussions*

12:41 pm **Moon Conjunct Return's Venus**

15° Taurus: *A man in evening clothes is muffled to breast the storm through which he walks, yet wears his top hat rakishly. TRANSCENDENCE*

Appearances matters - at least to you, at this time. A haircut, a beauty treatment or a general revamp of your looks, life or otherwise makes this a fun time when you'll become a little vainer, more diplomatic and more able to reach an agreement or a compromise or flirt and otherwise sell yourself!

It's a good time to be presenting things in the best possible light and dressing up your reality in its Sunday best - smile, and the whole world smiles with you. When you look good, you feel good, and you make others around you feel better as well.

By surrounding yourself with the trappings of love, desire, wealth, and beauty, you bring those very same elements closer to you, so indulge yourself in order to attract the future wherewithal of self-indulgence. In other words, consider play to be an investment in the future as one good thing leads to another.

You may have improved relationships with women, be invited to a party, engage in social activity or go to a nice restaurant and generally be more self indulgent than usual. This is also a good time for a private get together with just family and friends. New relationships and friendships are occasionally formed at this time. This combination is a nurturing one that encourages friendliness and support.

Issues and Accents: *gratification, bonding, vacations, politeness, resources*

06:47 pm **Moon Enters Natal 06th House**

19° Taurus: *A newly formed continent is seen, fresh and green within its setting of interminable ocean. ORIGINALITY*

This period has a bit of a "back to work" flavor, where picking up stitches and buttoning down projects is the flavor of the day. Where you have gotten off schedule, either at work or in your personal habits or health regiment, now is the time to make the correction and get back on track. By strengthening routine so it runs by itself, you free your hands for more important things down the line and prevent untimely trip-ups from overlooked details at the last minute.

Issues and Accents: *perfection, kitchen, assistants, discrimination, attendance*

Sat Jun 19, 1982 **Moon in Taurus** (Enters Gemini at 01:34 pm)

03:11 am **Moon Enters Return's 09th House**

24° Taurus: *A mounted Indian brave rides proudly with human scalps as trophies at his belt. CONQUEST*

Jump out of bed and go for a long run before getting on your bike and cycling to work. Get those legs working! If you can take the day off, you might like to get a day return somewhere you haven't been before, just to see what it's like. If you can't get away, then it's a good day to expand your mind by studying some philosophical ideas or religious beliefs. You might like to go to a museum or library and check out some heavy tomes! In the evening you'll probably feel like going out for a curry, a Thai or Chinese and a few drinks. The tendency will be to overdo it on all levels. You might stay up too late and wake up with a hangover. Never mind, take a few Paracetamol and carry on tomorrow – life's too short.

It's time for an overview and a bigger picture so don't care so much about details as about having some sort of Plan! It's a great time to get out of the house - for a walk, run or a drive, going some place you've never been.

How about a new book or filling your brain with something besides the same old same old. Boredom is kept at bay now with an Adventure!

This is a good time for establishing the lay of the land, getting that aerial overview that confirms where you've been, where you are, and where you're going. You needn't rush off on the journey, just turn it around in your mind until you have a good grip on the possibilities it offers.

Issues and Accents: *abundance, altruism, learning, religion, maturity*

04:32 am **Moon Conjunct Natal Venus**

25° Taurus: *A magnificent public park spreads its charm before the eye in a vista that awes the loftiest spirit. IMMUTABILITY*

Take the opportunity to express the warmth you feel and don't hesitate to display your social charms in a fertile, group context. Flattery will get you everywhere, so you can safely lay it on thick. Self-improvement and beautification are the way to go, but self-indulgence can slip into the middle, so watch that you don't overdo things because you just can't help yourself. Impulse buying is easy to do - be kind to yourself, but watch your wallet.

Issues and Accents: *finances, sex, forgiving, friendship, spouse*

00:18 am **Moon Conjunct Return's Mercury**

7° Gemini: *An old-fashioned well, still yielding the purest and coldest of waters, stands invitingly near a shade of trees. RESOLUTION*

It is a time when you are likely to lack detachment or objectivity, so postpone making important decisions for the time being. You may be preoccupied with

relationships or your personal life. Relationships with women become more important now. You should be a bit careful of mood swings. The swings of mood are neither particularly good or bad by themselves. Much depends upon the other planetary aspects currently formed in your chart. This aspect merely acts as an amplifier of emotions.

This is a time for clearing things up and attempting to be particularly lucid about your current set of plans. New insights can be worked into the picture and details laid out to those who need to be in the know. Bounce ideas off other heads to see a less subjective view of your schemata, then proceed to set things into motion before you lose the freshness of the inspiration. Though feelings may compel, you're best off right now with only what can be expressed clearly in words.

Issues and Accents: *agents, waiters, effectiveness, clothing, luggage*

06:54 pm **Moon Enters Natal 07th House**

19° Gemini: *In the somber archives of a sedate museum, a large archaic volume is somewhat conspicuously displayed. IMPLICATION*

Personal relationships can be put into focus now, and you may find that you can share your emotions and responsibilities with a partner who will take a load off your back. By giving credit where it's due and avoiding competition or jealousy you will find you often receive more than you give, but then that is what usually results from an open hand and heart. Fairness is at a premium right now, so go out of your way to see that everyone is on an equal playing field.

Issues and Accents: *disagreements, prejudice, half-truths, contests, matchmakers*

11:18 pm **Moon Conjunct Return's Sun**

22° Gemini: *An old-fashioned harvest home festival is at its height with flashing dancing couples crowding the barn floor. ASSEMBLY*

There is harmony between your body and spirit now. Internal power struggles between your conscious and unconscious, intentions and actions, thoughts and feelings seems to be absent or minimized. This enables you to do things more holistically with a more complete sense of purpose. Occasionally this can indicate a change in the direction of your life.

The heart of the matter and the main focus of the month gets its greatest boost now, even if it may not seem so at the moment, so keep your eyes wide open and be ready to jump to the tune when it starts to play. It's a time to whip up enthusiasm, not necessarily to get down to brass tacks, so put on a happy face and spread good feelings around, even if nothing else seems to get done. By engendering warmth and excitement, you focus the flood in your direction and partake not only of your own energy, but the environmental electricity flowing down your wire.

Issues and Accents: *drama, speculation, boasting, arrogance, protocol*

03:03 am **Moon Enters Return's 10th House**

24° Gemini: *A group of carefree children, gaily dressed for their sport, are skating about a smoothly frozen backwoods pond. DELICACY*

The good times can't last forever and there are bills to be paid. The serious side of life is to the fore over the next couple of days. Where have you been ducking your responsibilities? This is the time to get everything sorted out and settled before things get out of hand. Time to set some boundaries for yourself and others to make sure that everyone is clear about what's expected.

Career figures prominently – your place in the world needs to be maintained and it's only by hard work, thoroughly carried out that you can stay at the top of your game. What people believe you are often seems more important than what you really are, so crafting your public image is critical for success. This is always a mix of real achievements mixed with what's in the eye of the beholder, so make sure that you have both working for you. Find out now what other people, especially your peers, are saying about you and provide information to turn the opinion polls your way. Sometimes a spin doctor is more valuable than an M.D.

Issues and Accents: *policy, purpose, decisiveness, the elderly, honor*

New Moon in Natal 07th House

This is a particularly ripe couple of days for finding a new partner or turning over a new leaf with an old one. You may find a flood of emotional intensity coming your way and how you utilize it could largely shape the direction of the relationship. That means be particularly understanding and realize that though feelings may be overstated at this time and emotions run hot, the message underneath is sincere and needs to be taken seriously. Breakthroughs can occur now that you both might have kept a lid on otherwise, and you'll be glad you achieved the new closeness, even though you may not be able to keep it going at that level of intensity all month.

New Moon in Return 10th House

What would you really like people to say about you? If that's not what they're talking about, you could try a paradigm shift in what you do for a living. Not quitting your job and moving to another country, but making some moves to pick up a whole new direction. Then tell people about it and see what reaction you get. They may think you're crazy, but they may also say it's great, they always thought you had that in you. It might even convince you to run with it. It might not. But what it will do is give you a fresh look at yourself as others see you, and that is a large part of what determines your professional success. Maybe you've been missing your calling (or just the right approach to it) all along, and all you had to do was ask for feedback.

Solar Eclipse

This New Moon is also a Solar Eclipse, which makes its impact twice as important. In matters concerning the house it falls in (see New Moon text) and the planets it touches today (q.v.) you can expect a reversal of field that has been building for a month and will impact the next five months. The energies in these areas are subjected to tornado-like twisting which usually catches everyone by surprise, though you will see how obvious it was in hindsight later. Because both Sun and Moon are in the same spot, it has a very dominating and physical effect as well as emotional, so you can expect some of the changes here to rather overshadow the rest of what goes on this month.

Issues and Accents: *prejudice, friends, competitors, reconciliation, matchmakers*

06:16 pm **Moon Conjunct Natal Mercury**

4° Cancer: *In an imaginative tableau, a hungry cat is seen arguing earnestly with the mouse who is to be her victim. JUSTIFICATION*

Your heart and mind combine to either cause more stress (look at the symbol and degree for symbols to meditate on) or else a sudden AHA feeling!

With mind and heart connected you can achieve great things, speak and write from the heart and come up with ideas that just make sense to you.

Using your mind (mercury) to fulfil your needs (Moon) is not only smart now, it's so possible you'd be a fool to waste time on idle chat, arguments or mindgames!

Sudden inclinations to figure things out and think things through are definitely the way to go, and it's a good time to put it down in writing lest you forget it. That's also a good idea because schemes hatched now may be somewhat colored by feelings of the moment that can be wisely edited out after a second look. Keep it simple and don't get bogged down in details for the time being and you can cover multiple topics and issues, solve multiple problems while the inspiration lasts.

Issues and Accents: *quibbling, books, language, messages, teachers*

Tue Jun 22, 1982 Moon in Cancer

04:29 am **Moon Conjunct Natal Sun**

10° Cancer: *A large and beautiful diamond, in the hand of the lapidary, is now to be cut to its full perfection. PROMISE*

Don't get lost in things of little consequence - define yourself in your own way, don't let anything on the outside do it for you.

It's time now to step up to the plate and deliver who you are on a plate and stick to it. Don't know what you want now or who you truly are? Better find out soon so you don't waste this open door in front of you now.

This is likely your second most active time of the month, as your inner energies get a boost and you are more likely to be in for some ego-stroking. As greater energy and enthusiasm flow, so do the opportunities to expend them, so you might take care not to overdo things or you'll drain yourself. This has a "launch-pad" feel to it, so make sure new endeavors begun now are birthed with a steady hand, as well begun is half done and you don't want slips at the starting gate.

Issues and Accents: *self-confidence, vitality, ardor, vision, glory-seekers*

10:29 am **Moon Conjunct Return's Moon's Node**

14° Cancer: *A very old man, whose feebleness adds strangely to his dignity, stands alone, facing the darkness in the northeast. TRADITION*

Something important is floating your way, jumps in front of you, shouts for your attention or just whispers in your ear or in your stomach, but a feeling, hunch, person or place beckons and you may be wise to listen or follow to see what's on offer.

This is your signpost moment to navigate where you should be going so pay attention to your future, instead of churning over what you don't yet have or what went 'wrong'. Destiny has a plan remember and it's on days like this, that another jigsaw puzzle piece could fall into place.

The opportunity for emotional or financial attachments and the responsibilities they entail may be something you want to pass on for the moment if you're not fully committed. Today's blithe commitment all too often becomes tomorrow's burden, so be sure that you really want it before you saddle yourself with more than you may want to carry. This does not mean avoid commitment altogether, but that many call and only a few should be chosen.

06:22 pm **Moon Enters Natal 08th House**

19° Cancer: *A fragile miss, representative of proud old blood, is wed by a pompous priest to an eager youth of the new order. SALVAGE*

Credit can be looked at creatively and used to maximum effect, with particular attention to raising your limits without overtaxing yourself. Recycling efforts may pay off by repurposing something you would have otherwise disposed of. A glance back to the old ways of doing things can inspire and even pay off as you realize there's nothing really new under the sun. Taking out the trash, once you have decided what it really is, can feel like a fresh, new start.

Issues and Accents: *extremity, fees, intimacy, reciprocity, penetration*

Wed Jun 23, 1982 Moon in Cancer (Enters Leo at 12:57 pm)

02:36 am **Moon Enters Return's 11th House**

24° Cancer: *Three castaways, a woman and two men, stand on a bit of glorious sunlit land facing the broad southern ocean. ESTABLISHMENT*

How do you do your bit for society? Is it by raising your and others' awareness of issues such as global warming, the energy crisis, economics and the third world? Do you try to behave more ethically by not driving to the supermarket, buying organic products or walking the children to school? It's a good time to think about how your personal choices affect society and humanity as a whole. You could spend time with your group of friends discussing how you can work together support each other and the wider world by bringing in change. If we all do something we can make a difference.

What you can't do for yourself, maybe your friends can do for you, and a friend in need is a friend, indeed. You don't want to tap your nearest and dearest too often, but asking for help and support occasionally is part of what makes friendship, and you might do that now, even if you're not terribly in need, just to keep relations from getting rusty. A little mutual admiration can go a long way towards lifting your esprit de corps, and a heartfelt hug beats a handshake.

A friend either drops a line now asking for your company, or you'd be well advised to check in with friends so they know you're still around!

Think teamwork - two heads are better than one. It's a social time, so you'll be pulled out into the community somehow - if the crowds are too much, find down-time with friends or work on a group project. Be a little quirky, now's the time when you want to be rebellious, so you'll probably lash out if you feel emotionally restricted or stifled. Do it your way, but don't freak everyone else around you if you can help it. Fit in, by being your own person but respecting boundaries.

Networking is big now - either out and about or over the internet or telephone wires. Chat room anyone? How about posting an ad, meeting new friends or just getting out to a social function?

Humanitarian principles arise -do your part to help the community around you.

Issues and Accents: *disruptions, nearest and dearest, options, immodesty, meetings*

Thu Jun 24, 1982 Moon in Leo

07:05 pm **Moon Enters Natal 09th House**

19° Leo: *A clubhouse built on a floating barge is gaily decorated, and crowded with revelers; the water reflects its lights. CONGENIALITY*

This can be an ideal time for those long conversations and ambitious exploration of new mental and emotional territories. Your reach feels greater than before and you are only limited for the moment to what you can imagine, leaving the details for later. You can stand back and examine the big picture and chart your way through it. Travel broadens the mind, whether it be a physical trip or an armchair journey of the mind. Believe in what you conceive, and it will come true.

Issues and Accents: *consequences, suggestions, magnanimity, assumptions, air travel*

Fri Jun 25, 1982 Moon in Leo (Enters Virgo at 02:36 pm)

03:20 am **Moon Conjunct Natal Uranus**

24° Leo: *A strange figure is revealed, outwardly unprepossessing, untidy, unkempt; he is a yogi of transcendent powers. CHARACTER*

The urge to think or act impetuously offers both risk and opportunity. A sudden change of direction or a new direction entirely can put you way ahead of the

game, or get you thrown out of it. But, if it's within reason, fly with it and see what happens - nothing ventured, nothing gained. The best maneuvers often burst out full-blown like Athena from Zeus's brow. Don't be impatient with others who may not go along, and be ready to accept consequences, for good or ill.

Issues and Accents: *healing, investigation, disruptions, incredibility, change*

03:43 am **Moon Enters Return's 12th House**

24° Leo: *A strange figure is revealed, outwardly unprepossessing, untidy, unkempt; he is a yogi of transcendent powers. CHARACTER*

This is a duvet day. Sleep late and write down your dreams – if you can find a pen and paper that is. Otherwise just go back to sleep, turn off your mobile, your phone and retreat into your inner world. It's only by listening to our dreams that we find out who we might be. If you're suffering and in pain today, you can develop compassion and empathy for all those in a similar or worse situation. Maybe this will give you the impetus to do something to help them. If you can get up and you're not too disappointed by the sad state of real world, going to a film or the sea is a good thing to do today. Don't worry if you don't achieve a lot in the outside world, whatever you do, it will never be enough and the moon moves into your first house again soon...

Since you're feeling emotionally out-to-sea in the next couple of days find your spiritual anchor and drift away. A perfect time to switch off, opt out, give up, dissolve, lose yourself - through a movie, some great sex, or just some Quality Alone Time. You'll seek to untangle from the noise of others now. Either you'll be left alone or you'll want to be left alone.

Rent a movie, write a movie, listen to music, go dancing, sing, write, paint a picture. Be nebulous -read Tarot cards, you're highly psychic now and sensitive.

Behind-the-scenes maneuvering can go a long way toward setting you up for the main event, so don't feel you have to tell all right now to get things done. What you don't know can hurt you, so some non-invasive information-gathering on the sly may be just what you need to take some time for right now. Honesty is the best policy, but do no harm is the bottom line. The less said the better right now, and actions will speak louder than words when the time comes.

Issues and Accents: *the subconscious, sanctuary, downfall, clinics, disorder*

06:53 am **Moon Void Ends: 02:36 pm**

11:24 am **Moon Conjunct Natal Moon's Node**

29° Leo: *A mermaiden has climbed to the rocky shore of a bleak coast; she awaits the prince who will bring her immortality. POTENTIALITY*

Feelings are feelings and they should be honored. Certain intuitions are pushing you in the right direction - but which ones? Basically, at times like this, go with your gut, follow your heart and acknowledge what it is you do feel, because within there, lies the gold you currently need.

You're being moved along a specific emotional path now and your emotions will lead you where you need to go - are you willing to follow them? It may be new emotional ground you're asked to walk upon, but that's where the growth is, so follow it.

Commitments undertaken at this time may last longer and require more of you than you now anticipate, so don't sign on the dotted line until you have read the fine print. And, don't casually say yes to something you don't really mean, because you may be held emotionally or financially accountable for it. This is a time to fine-tune your honor and become more closely aware of your emotional responsibilities, and realize just how much your behavior affects others.

11:24 am **Moon Void (Personal) Ends: 02:36 pm**

05:25 pm **Moon Conjunct Natal Mars**

2° Virgo: *A simple but impressively large white cross has been set up in splendid isolation on top of a commanding eminence. LOCATION*

You may find yourself running into brief spells of irritability and/or impatience, when you want to get on with things but your way appears blocked. It's easy to get into a fight, perhaps even easy to win one, but it's not a good time to choose one. Avoid quarrelsome and contentious people who might get your goat and remember that most battles aren't worth fighting. Snap judgments are usually the worst, and you can't regret mistakes you don't make.

Issues and Accents: *hate, machinery, violence, men, expansion*

Sat Jun 26, 1982 Moon in Virgo

00:58 am **Moon Conjunct Natal Pluto**

7° Virgo: *The women's quarters of an Oriental palace are revealed; here are the bright and unafraid eyes of cloistered souls. SELECTION*

Something bubbles beneath. Your emotions are apt to drag up something hidden from view (or else you find something or something arrives to make you react emotionally).

Being sensitive serves a purpose - it makes you more aware. Letting go of old feelings, resentments, failures or other intense issues is the key today. Kiss it goodbye, do an emotional cleansing. Drink more water.

Emotions run deep and could lead to an outer explosion - if push comes to shove, or else you're withdrawn and brooding on something. How about renting a horror movie, to destress? Facing the dark side of your nature seems inevitable now - so look to events to bring about some sort of crisis or something that inspires an intensity and passion in you. Is it worth fighting for?

Since emotions are deep, you'll find superficiality deeply distasteful now, so focus your feelings on something worthy. The inclination may be to push through to get your way, that for the moment the end justifies the means.

Sexual energy intensifies as you seek to find some level of extremism, intensity or passion - in fact, if you're feeling under the weather, is it misplaced passion that is hurting you?

Stand back and take another look, however, and you might decide otherwise. When you simply "must" do or have something, you probably shouldn't - at least not to the degree

you are contemplating. Emotional self-control may be the order of the day, at least to get a handle on your reactions. Triggers are there for a reason - since they're unavoidable, decide where your power is going to be channeled - are you going to give in and 'lose it' or submerge yourself willingly in an experience - to show how deep you can ride it. Either way, extremes can be fun, so treat it as a learning curve. Such feelings are signals that can get you in better touch with deeper emotions and are better used in that cause rather than in the service of a quick ego boost.

Issues and Accents: *physicians, preservation, transitions, dishonor, sanitation*

10:38 pm **Moon Enters Natal 10th House**

19° Virgo: *There is a colorful gallery on the warm summer day; in the clear blue water a swimming race nears its decision. COMPETITION*

Professional considerations should be looked at and adjustments made to see that your name is recognized and respected among your peers. While your attention is on it, touch up that resume, touch up your image, and take some time to advertise yourself. Make mileage out of compliments and take credit where it is due. Follow up leads and don't be shy about blowing your own horn, as long as you can truly live up to what you promise. Time to wave the flag - yours.

Emotionally you may tend to be more controlling or parental (or complain others are) now as you seek to get a handle on what your emotions are doing to aid or hinder your progress.

Issues and Accents: *pride, boundaries, retirement, discipline, certification*

Sun Jun 27, 1982 Moon in Virgo (Enters Libra at 07:31 pm)

07:51 am **Moon Enters Return's 01st House**

24° Virgo: *A large book for children is open at a colored page; here Mary with her yellow curls leads an immaculate white lamb. PICTURE*

Anger and assertion are more likely to be expressed openly over these two days but it's a quick flare-up and things will soon settle down. You won't feel like compromising. It's also a good time for starting things off and putting energy into going after your own personal goals. You might feel more competitive than usual and it's easy to step on other people's toes at this time.

Be careful not to rush into things you might regret later, you can be very impulsive right now. This marks a period when it will benefit you most to use your personality as the winning card in any game you are playing. It's the time to make that sale, impress that client, charm that lover, play to the audience. Don't try to impress them with statistics or your track record, just wow 'em with the way you come on, with the conviction you have in what you present. This is the month's window for being on-stage, so take the opportunity to light up when it's presented.

Issues and Accents: *excellence, credibility, self-destruction, appearance, ideals*

06:23 am **Moon Conjunct Return's Mars**

6° Libra: *A pilgrim sits on a rustic bench and one by one his ideals in a sort of trance-vision take form before him. CONSERVATISM*

This is a time when you are likely to feel especially irritable. something unpleasant or some dreaded duty that you must take care of may put you in a bad mood. It is best to try to be alone now if at all possible as interactions with others may set you off. Often this is a period of domestic discord and lack of harmony in your daily life. Wait for a while before you try to deal with problems. You may begin to feel depressed once the Moon has sufficiently separated from Mars.

A quick, deft thrust can slay your quarry, but shooting from the hip risks overwhelming return fire. Rash actions seated in annoyance or anger can do a lot more damage than just sitting on your hands and waiting it out. Forceful action can carry the day, but only if it's well thought out and comes from a cool head, not a hot heart. The opportunity here lies in knowing when to pass and let someone else make the mistake, after which you may capitalize upon it.

Issues and Accents: *tools, vigor, fire, extravagance, hardware*

Tue Jun 29, 1982 Moon in Libra

00:20 am **Moon Conjunct Return's Saturn**

16° Libra: *The storms of the winter have washed away the boat-landing; some happy souls at the beach resort are building one. DEMAND*

You are likely to have the blues during the few hours that this is taking place. You may tend to shirk your responsibilities for a while or be temporarily unreliable. You are likely to experience feelings of isolation and loneliness. You may feel that you cannot depend upon anyone else for support and that you must remain independent. Relationships with women are likely to be troublesome. Often there is some sort of domestic problem or onerous responsibility that must be taken care of now.

Setting limits and downsizing some of your operations may be just what you need to get a tighter focus and better utilize limited resources. This may at first seem a downer, but it's really a matter of putting quality over quantity. You cannot be all things to all people, so you have to select what role you can effectively play and divert your assets to support it. Carefully-chosen sacrifices allow all your guns to bear on the target you can't afford to miss.

Issues and Accents: *reliability, darkness, covetousness, awkwardness, self-control*

05:48 am **Moon Enters Natal 11th House**

19° Libra: *A gang of robbers is seen in hiding, ready and anxious to attack the heavily armed caravan just coming into sight. REPUDIATION*

This is a good time to look to close friends for support, either as backing for

endeavors you need help with or just for general emotional support and refueling. It's also a good time to tap into others' creativity when your own inspiration well runs a bit dry, and you'll find yourself refreshed as a result. In a similar vein, you may also want to tap into higher resources, both spiritually and financially, to pick up some of their overflow for yourself.

Issues and Accents: *mistrust, change, advancement, objectives, intolerance*

03:38 pm **Moon Enters Return's 02nd House**

24° Libra: *A marvelously colored and figured butterfly is spread before the eyes; on its left side is an extra third wing. SPECTACLE*

It's a good time for shopping and indulgence. Buy yourself a new CD, perfume, flowers and fruit! If you can, spend some time in the country breathing clean air, and appreciating the beauties of Mother Nature. If you're in a city go to the park and sit on the grass. At home, put your feet up, put on your new album, light some candles and have a long bath scented with aromatherapy oils. (Especially those ruled by Venus such as Ylang Ylang or Rose). Indulge in some good food, and gentle, sensual massage with your lover.

This month's finances are best dealt with, or at least planned for, during this two-day stretch. Make decisions, allocate funds, plan a budget, write checks, anything that can go towards wrapping up your money issues for the month. Once these issues are out of the way, you can move on to networking on your next set of issues. This is the time to count your recent winnings, impact any losses, and see what your bottom line is going to fund for you in the near future.

Issues and Accents: *capital, content, limitations, unemployment, furnishings*

04:57 pm **Moon Conjunct Return's Pluto**

25° Libra: *A little boy, rebellious against school, watches a fluttering autumn leaf that seems to spell out his lesson for him. FANTASY*

This transit can occasionally bring deep feelings to the surface that you didn't know you had. You may come to a deeper understanding of yourself as a result. Relationships with women or your mother may be unusually intense. On a mundane level, this can be a time when you decide to remodel your home, weed out useless items or take out the trash. Often there is a desire to change some part of your self that you do not like.

You may have to briefly force someone's hand in order to win this round, but that's all part of the game, so don't flinch at the possible necessity. Also don't be surprised if turnabout is fair play and you find yourself the subject of a force play. The bottom line is to remember that it's more than just your game and you can only win if everybody gets to the finish line. Don't try to overwhelm pockets of resistance, however, as a Pyrrhic victory is an empiric defeat.

Issues and Accents: *renewal, refuse, spirituality, manipulation, healing*

Wed Jun 30, 1982 Moon in Libra (Enters Scorpio at 04:02 am)00:23 am **Moon Void (Personal) Ends: 04:02 am**05:34 am **Moon Conjunct Return's Jupiter**

1° Scorpio: *A sight-seeing bus is threading its way through crowded city traffic; its occupants eagerly view the sights. INTERCOURSE*

You are likely to feel very good and self indulgent and will want to be surrounded by your friends. Because of your elevated mood, you might want to have a party or have fun. You are prone to turn the other cheek when disagreements arise now. Relationships with women are improved and it can be a good time for romance.

Positive thinking and a generous imagination can now set the stage for increased opportunity and a bigger piece of the pie. The only limits you have are those you impose upon yourself, and now is not the time to do that. Think big, not only for yourself but for those involved with you, so that win-win situations can blossom and lead to ever-expanding possibilities for all concerned. When you invest in others, you invest in yourself, paying dividends to your posterity.

Issues and Accents: *perfection, judiciousness, hope, prevarication, quantity*

08:54 pm **Moon Conjunct Natal Neptune**

9° Scorpio: *A dentist is hard at work; man-made porcelain replaces nature's enamel which consciousness has been unable to hold. PRACTICALITY*

Your an emotional sponge now, soaking up vibes as your heart switched to Right Brain mode - great for creative ideas, not so good for detailed planning.

Intuition runs strong for a bit, and chances are that hunch you have is correct, even if you can't put your finger on it or give a reason for your predictions. The same goes for your people-antennae, which are particularly tuned in to the feelings of those around you. It's easy to drift off into a daydream, or simply fog out at a cocktail party. Operating heavy machinery, however, is less than recommended. Don't try to dream and drive at the same time.

Issues and Accents: *rejuvenation, flattery, camouflage, dreams, enigmas*

19° Scorpio: *A wise old parrot has been listening attentively to the conversation and preening himself; now he begins to talk. REPAYMENT*

This is likely the quiet time of the month, a lull in traffic, the calm before the storm of renewed energy that will follow. Suddenly you're in the mood to switch off, tune-out, drop out, quit, or just sink back in Right Brain mode - enjoying movies, a bath, writing, singing, drifting, indulging in dessert, nature, drugs, drink or anything else that makes you feel good.

Retreat and contemplation, with resultant renewal and regrouping, are favored pursuits. You're in no mood for detailed or draining work, so don't bother. Instead, how about a nap, a long sleep, a session with your walkman, ipod or favorite film, and coast a

while.

You're more inclined to want to get away for some time alone now -do so, you're doubly sensitive and need time to clear your psychic centers.

Use down time to reconsider your options and make sure you are really on the right course. Inner challenges you grapple with and resolve now will result in more focused and effective action when the time comes for it, which will be shortly. Rest, recuperate, recharge and don't worry, you're not going crazy, you just need to hide a little while you gather your reserves ready for an increase in energy up ahead.

Issues and Accents: *dreams, fantasies, privacy, blunders, enemies*

Fri Jul 2, 1982 **Moon in Scorpio** (Enters Sagittarius at 03:26 pm)

02:31 am **Moon Enters Return's 03rd House**

24° Scorpio: *A steady stream of people down a mountain side gives testimony to the power of the man who has there addressed them. APPEAL*

Get up early, listen to the news, buy a couple of papers and get out of the house. This is a good day for travelling about and visiting people you haven't seen for a while. If you can't actually meet up, then email or phone your friends, family, colleagues. If you're at work it can be a good day for meetings but be careful that you don't get so bogged down by so much information that you lose sight of the bigger picture. You might want to get a new book and spend the evening on the internet.

It takes a village to get anything done, which means to get things moving you've got to talk to everybody in town. If you take this time to be the great communicator and unify your social network you will find there are plenty of hands to go around to get it all done.

Open new avenues of discussion that focus not on theory but on everyday nitty-gritty, things that grease the skids for all concerned and avoid wasted time by getting rid of repetition, misunderstandings.

Special phone calls, emails, letters and mail - along with important conversations are highlighted now - so be clear in your intentions - spit it out, rather than sit on your ideas or being vague. Clear communication is essential to see the way ahead.

Issues and Accents: *back up, contracts, implications, questions, ideas*

11:39 am **Moon Void (Personal) Ends: 03:26 pm**

07:08 pm **Moon Conjunct Return's Uranus**

2° Sagittarius: *A quick wind is making sport with the sea; through sharp mist as far as sight reaches, are scurrying whitecaps. ORNAMENT*

A change of pace is indicated. This is often a time of emotional surprises and quick fluctuations of mood. You may feel a bit emotionally upset about something, or feel rebellious with little patience for restriction. Avoid rash behavior that you might regret later. Postpone decisions.

You want change, your emotional well-being depends on it so you don't want to follow any particular 'rule' right now and rules could be the making or breaking point.

Don't go crazy and throw in something useful or worthwhile just because it asks a little too much of you but don't get walled up or forced to do anything against your will.

Freedom calls - wherever and whatever that is for you. Find space to breathe.

Taking risks on sudden, far-out ideas may generally be inadvisable, but this may be just the time to do it. Sudden flashes of insight may cut through the normal, humdrum solutions and start you thinking out of the box. Don't just throw caution to the winds, but don't hesitate to try something new and different this month if it seems appropriate to the occasion. Remember, however, that doing so may change more than you think and could have you off balance unless you take a flexible stance.

Issues and Accents: *foreigners, dislocation, potentials, haste, dissent*

04:41 am Moon Enters Natal 01st House

19° Sagittarius: *The pelicans have been distressed by the intrusion of a man; they are moving their habitat to places unknown. MIGRATION*

This is likely your most interesting and active time of the month, when you can project yourself more convincingly and with greater force than at any other time. It's the time to get things done in person, face-to-face, rather than by mail or phone, as your ability to project yourself is at a peak, as is the inclination of others to accept you at face value. It's a period to make extra space in your schedule, as you're likely to have more to do than you expect.

Issues and Accents: *deadlines, self-pity, disavowal, advice, deficiency*

03:10 pm Moon Enters Return's 04th House

24° Sagittarius: *The bluebird, as a sign of good luck and happiness, alights at the door of a little cottage on the highway. FORTUNE*

Don't go anywhere today if you can possibly avoid it. Have a nice day at home making your personal space your sanctuary. Cook a wonderful meal and gather your family round. Looking after children or elderly relatives would be good things to do today. Otherwise you might just want to work through some of your feelings which you didn't have time to deal with before. These days are good for some rest and recuperation and TLC for yourself and those closest to you.

Attention to laying the foundations of what you are going to do and be for the month is the order of the day. Build from the ground up and don't start on the first floor until the basement is done. You don't have to complete it all right now, but have the order determined and your materials ordered so you don't have to go back and draw up altered plans later. Where you've already put it all together (or mostly), tidy up the joint, set your house in order.

Issues and Accents: *culture, immune system, habitation, caring, furniture*

06:30 pm **Moon Void** Ends: Jul 05, 1982 04:16 am

07:43 pm **Moon Conjunct Return's Neptune**

26° Sagittarius: *The scene is an old-fashioned battle; in the hot hand-to-hand fighting, a flag bearer distinguishes himself. EXAMPLE*

You're likely to be more sensitive to your surroundings than usual. You will tend to soak up the emotions of the people around you like a sponge. Your feelings may be unusually difficult to put into words or rational thought. You are likely to daydream more than usual and lose touch with reality. Escapist literature, poetry and music may appeal to you. Be careful about relationships with strangers. Trust your feelings and try to harness your intuition, which is favored.

Although goals are different from dreams, you must dream to have goals, and it's at times like this they are born. The seeds of the future are borne on the wind, and when reveries come to roost, the fantasies of tomorrow become the accomplishments of today. But like a hall of mirrors, only one of the images is you, and you will have to find out which one that is, in order to make it come true.

Issues and Accents: *character defects, procrastination, flexibility, sleep, vision*

14° Capricorn: *A vast pile of Mayan ruins in tropical America discloses a perfectly preserved bas-relief carved in the granite. REPUTE*

Full Moon in Natal 01st House

For a day or so you may find things get fairly wacky in your surroundings, and one of the causes may be you. It's a time when the time is right (and the pressure is on) to bring critical projects to a conclusion, put on finishing touches, and show the world just what you're all about. The emphasis is not so much on what you've done, but rather who you are, and it's the right time to let your personality out of the box and shine, shine, shine. The whole set of circumstances may have you a little giddy, but that's part of the surrounding picture at Full Moon, and this is your time to take a ride on that energy and put your personal mark on what comes of it.

Full Moon in Return 04th House

Finish up shorter projects underway on the home front and save larger ones until next month. What you launched into two weeks ago should be wrapped up by now. Although you may have successfully siphoned off time from pursuing career matters so far, it's time to get on with it and move back onto a regular schedule. Don't hesitate to use a quick fix if necessary, as you may not be too sure of what you may have done in haste. Leave your options open to change your mind. You may be tempted to draw your bottom line over some seemingly important issue right now, but make sure it's a line in the sand and not in concrete. Things will be different next month, don't box yourself in.

Lunar Eclipse

This Full Moon is also a Lunar Eclipse, which makes its impact twice as important. Expect sudden turnarounds, unexpected new directions, serious paradigm shifts in this house area's developments (see New Moon paragraph) along with the planets the Moon touches today (q.v.) that has been building for the last month and will have effects running into the next five months. Because of its intensity, this particular part of your Lunar Return may quite literally eclipse much of the rest of the month's goings-on. It's effects fall mainly on the emotional side and ripple outward from there. Expect to make room for resultant happenings for some time to come.

Issues and Accents: *availability, delusion, self-discipline, accidents, arrangements*

05:39 pm **Moon Enters Natal 02nd House**

19° Capricorn: *A little miss of about five has gone to the market with a huge shopping bag and is quite as adult as anybody. FUTURITY*

Attention to cash flow and how to improve its balance in your favor catches your focus, and you'll find yourself basing both attitude and decisions on how much it costs, what it's worth, who wants to buy it. Your innate possessiveness is at its maximum and it may be hard to part with belongings, even ones you need to get rid of. It's also a time for reevaluation of what you think is important to you and why you consider it so, getting your ducks in a row and making critical choices.

Issues and Accents: *substance, reprieve, punishment, advantage, quality*

Wed Jul 7, 1982 Moon in Capricorn (Enters Aquarius at 05:03 pm)

04:05 am **Moon Enters Return's 05th House**

24° Capricorn: *The convent lies between gnarled old trees as a very picture of peace, and a woman approaches this sure haven. RESCUE*

You have the opportunity to celebrate yourself. You are special and unique (we all are!) Wear that outfit that announces to the world that you're a star. If you haven't got that outfit yet – go out and get it. It's a good time to have a party, or go to the theatre. Children and the inner child are important for these days as Leo likes to play. You could go to Legoland, Disneyland or just head out and dance. Basically - have some fun for goodness sake!. This period is all about creativity and love affairs so go for it now.

Making the most of playtime can do as well for you as the most earnest work, and setting time aside for recreation and generally creative pursuits will serve to refuel and reinspire the rest of the month. The works of your life are your children as much as any son or daughter, and when they are conceived and nurtured in love, the result can only bring reward. So, listen to the natural soul inside and take some time now to bring those inner voices into the sunshine.

Issues and Accents: *pleasure, self-pride, socializing, bravado, flair*

05:12 am **Moon Void Ends: 05:03 pm**

12:39 pm **Moon Void (Personal) Ends: 05:03 pm**

12:39 pm **Moon Conjunct Natal Saturn**

28° Capricorn: *A large aviary built as a wing of a rural mansion reveals a host of singing and contented feathered citizens. LIGHTNESS*

If you are tempted to highlight your insufficiencies, do so in the interest of a better and less wasteful existence. When things suddenly stall, it's usually for a reason, and now's the time to find out why. Don't bash yourself, do improve yourself, you can't overcome your limitations until you truly know what they are. Similarly, limitations are often imposed because you haven't made sufficient use of what's already on your plate. Say grace, and you'll receive grace.

Issues and Accents: *callousness, denial, punishment, guarantees, abandonment*

Thu Jul 8, 1982 Moon in Aquarius

03:17 am **Moon Conjunct Natal Jupiter**

6° Aquarius: *The stage is lit dimly for an allegorical drama and a solitary performer carries the thread of mystery. DRAMATIZATION*

Look for circumstances to further your good fortune and new ways to develop that further your agenda. This is aided by a generally positive, can-do attitude and a feeling that it's all going to work out for the best. And that's an approach that can make for excellent self-fulfilling prophecies. Generosity is the first option, which tends to be returned in kind, and a feeling of being in touch with the general operating system of life gives insight to the heart as well as the head.

Issues and Accents: *relatives, miscalculations, attitude, appointments, cash*

Fri Jul 9, 1982 Moon in Aquarius

05:48 am **Moon Enters Natal 03rd House**

19° Aquarius: *On every hand are the still-smoking embers, but the forest fire is out, and the weary fighters are most jubilant. ASCENDANCY*

Getting the word out, making connections, tying people and things together are the focus, and you can expect more phone and mail activity than usual, so adjust your schedule accordingly. It's a good time for touching base, but not ideal for in-depth conversations which may be put off until you have more time to get into them. Technical matters, networking, and anything that involves media are on the front burner, and machines can take on a life of their own, albeit briefly.

Issues and Accents: *mobility, convenience, letters, shipments, commuting*

03:59 pm **Moon Enters Return's 06th House**

24° Aquarius: *A man obviously of the world has turned his back on passion and is giving people a deep and undying wisdom. DISPASSION*

Doing some useful work is the best way to use your energy now. It might be studying, writing that report you've been meaning to get down to, organising your office, tidying your home or doing the garden. Anything that needs sorting out should be done today when you will get satisfaction from it and it won't feel like such a chore. If you know anyone who could do with a helping hand then this is the time to go to their

assistance. It's also a good time to improve your health – these two days would be good for a monthly detox or you could go to the gym, or health club.

The daily structure of your life and work is often taken for granted and so can fall into disrepair. This is a time to reinvent the ordinary and make it special, to see that the habits and methods that make up your daily operations actually serve the purposes for which they were intended. By being a do-it-yourself efficiency expert, you can make this month more productive and less boringly repetitious. If it works, embrace it. If it doesn't, erase it.

Issues and Accents: *subordinates, guidelines, laundry, chores, healing*
